

It's that time of the year!! The SPAN Academy Quiz 2022

SPAN Academy is a medical education and outreach initiative of SPAN Healthcare Private Limited (SPAN) to facilitate a learning environment within the transfusion services community. On one side, SPAN enables care-givers, by partnering with them, to provide patients access to the world's best technologies. On the other side, SPAN works with the students of MD and DM programs in Transfusion Medicine providing them with access to educational opportunities and training that will allow them to hone their skills. SPAN has also partnered with the ISTM council by organizing CMEs and Quiz contests under the auspices of the ISTM.

SPAN Academy invests in connecting with the students who are at the conference with the aim of sharpening their skills. The Quiz contest is a part of the fun quotient associated with their participation at the ISTM conference. By assisting with the process of their attending the annual conference, SPAN, to a limited extent, allows them to return to their colleges from the conference with a new skill-set and real-time practical knowledge related to their theoretical studies.

The SPAN Academy Quiz is designed to challenge student teams with questions across different formats: written multiple-choice, first-to-buzzer rounds, negative scoring etc. The questions are created by subject matter experts and delivered to them by quiz masters, bringing in the element of surprise for the participants and making the quiz more interesting and competitive.

To connect with the student fraternity, SPAN has also started a website www.spanacademy.in for all the students of the MD and DM programs in Transfusion Medicine where we provide services such as:

- Resume Building
- Assistance with job placements across the country

About the Quiz

- A national level quiz contest for the students pursuing MD or DM in Transfusion Medicine in India at the venue of National Conference of Indian Society of Transfusion Medicine
- The Quiz is designed to challenge your knowledge in TM in a graduated manner
- This quiz will turn out to be an eye opener for you to look into your future steps and what needs to be expected of the field you are in.
